

TOWN OF NEWTON
POND EXCAVATION PERMIT

A FEE OF \$ 20.00 IS DUE AT THE TIME OF APPLICATION

***Only ponds with a maximum depth over 4 feet will require a permit.**

Date: _____

Applicant Name: _____

Applicant email: _____

Pond Location Address: _____

Parcel #: _____

Zoned: _____

*A completed application along with a rough sketch of the proposed pond (7 copies) must be returned to the Zoning Administrator at least 20 days before the next Planning Commission meeting. The Plan Commission meets the first Monday of each month. If approved, it will be sent to the Town Board for final approval.

*The minimum pond setback from lot lines left, right, or rear from any property line is 50 feet to the beginning of the slope of the pond.

*The minimum pond setback from a public roadway increases 2 times the depth of pond in addition to the setback from the road centerline. County trunk highway setback is 100 feet from the centerline. Town of Newton setback is 60 feet from the road centerline. For example, a pond on a Town road that is 10 feet deep would require a 60-foot setback plus a 20-foot setback (2 times 10 feet = 20 feet) for a total of 80-foot setback from the Town road centerline.

*These setbacks are to be measured from the beginning of the slope.

*All other regulations concerning man-made ponds may be found in Section 15.18 of the Town of Newton Zoning and Land Use Ordinances. They are readily available on the Town website: townofnewton.org

* To contact the Zoning Administrator, Lee Glaeser, call or text 920-973-1596 or email cheeks@lakefield.net
